

Health Careers Discovery Program

Are you a high school student interested in pursuing a career in healthcare?
Do you want to learn about medicine from real doctors and healthcare professionals?

The Program

Health Careers Discovery Program is a **FREE** program, open to Utah high school students (**juniors and seniors only**) who are interested in healthcare careers. This successful program has been running for many years at Intermountain hospitals around the state. Join us in listening to healthcare professionals discuss what they do in their job every day, how they got there, and why it may be a great choice for you. Have fun with friends as you try cool hands-on activities, too.

2019 Dates & Topics

Beginning in October, meetings will be held on Thursdays from 5:00 - 6:00 p.m. Each meeting will have a portion of lecture and a hands-on skill or activity. You can sign up to attend all classes or just the ones you're interested in.

- Oct 24 | Respiratory Therapy
- Nov 14 | Pharmacy
- Dec 12 | Nursing
- Jan 9 | Operating Room
- Feb 20 | Cardiology
- Mar 12 | Dietetics/Nutrition
- Apr 2 | Physical Therapy, Occupational Therapy, and Speech Pathology

Registration

Register online: www.intermountainhealthcare.org/healthcareersdiscovery/utahvalley

After signing up for a class(es) online, you will be emailed forms to complete and turn in. Completed forms and immunization documentation will need to be scan/emailed to tiffany.clawson@imail.org by October 21, 2019.

Program Location

Utah Valley Hospital: Sorenson Tower, Classroom 6 – 1034 North 500 West, Provo. Free parking is available in the West and East parking terraces.

Questions?
